People v Unknown Parties in Ownership and/or Control of Digital Wallet Addresses (demo replay)

Supreme Court of the State of New York, Queens County, IAS Part 24 · Index No. 700647/2025 · Hon. Karen Lin · order entered 2025-06-11 (source: decision-and-pleadings-2025.pdf page 6)

> Replay of a public court record for demonstration. Service in this exhibit was made on Sepolia (chainId 11155111) to **stand-in wallets**; nothing was sent to the defendants' real wallets, which are only read. This is proof-of-service material for a lawyer to review; the chain records what was sent and when, not that anyone read it, and not when a paper was filed with the court.

The January 2025 notices served the order to show cause (motion papers) before the June 2025 order. The July 30, 2025 notices fall inside the June order's window; their sender is not verified against court records.

C. Deadlines and activity after service

Item	Value	Basis
Service deadline (original case)	2025-10-09	entry 2025-06-11 + 120 days (CPLR 306-b extension in the order)
Service deadline (this replay, on-chain)	2027-02-22T07:42:48.000Z	case opened + 120 days; the registry requires a future deadline
declaredFiledAt (affidavit)	2026-10-25T07:44:36.000Z	entered by the filer; the chain cannot prove the court filing date
Response deadline	**2026-11-24T07:44:36.000Z**	CPLR 320(a) — declaredFiledAt + 30 days (status: excerpt-verified)
Caveat	**weekend/holiday roll-forward (GCL §25-a) not applied — lawyer review required**	
Activity snapshot	**Pending until 2026-11-24T07:44:36.000Z** — the registry rejects a snapshot before the response deadline. Computed root (not yet anchored): `0x4a985a35…27689404`. Sepolia time cannot be advanced. The registry rejects a declaredFiledAt earlier than case opening (FiledAtBeforeOpen) and any snapshot before the response deadline (ResponsePeriodOpen), so this step is pending on-chain. The snapshot step is shown from the local anvil replay.	

Wallet transactions per month after the original order (Jun 2025 – fetch date). Includes incoming airdrops such as later court notices. Activity is circumstantial; it does not show that anyone saw the notice.
